# SHIATSU AIR

## ADVANCE TO THE FUTURE MODEL

The Shiatsu Air is one of the most advanced massage chair out there! It has custom timers, manual and auto recline modes, lift leg and recline leg mode, many auto programs, musical synchronization, heating, full body massages from feet to neck, air bag massages, many types of massages and more!

## AUTO PROGRAMS

Massage professionals use technique, order and strength to give effective massages to the body. These techniques, orders and strengths can and has been incorporated into the SHIATSU AIR AUTO PROGRAMS.

There are 10 auto programs that run from 5 - 30 minutes

- De-Stress
- Rejuvenate
- Comfort
- Music Sync
- Ache Relief
- Relax
- Auto Stretch
- Lift and Stretch
- Down Stretch
- Pull and Stretch

## MANUAL SETTINGS

Manually choose and select from any of the functions, intensities, and widths of the massage rollers to your preferences with one push of a button.

Choose Shiatsu, Kneading, Tapping or a combination of Kneading and Tapping to suit your massage sessions accordingly.

# SHIATSU AIR

## AIR BAG MESSAGES

There are three sections air bag massages available with the Shiatsu Air. Waist, Seat and Arms. Using air, the air bags will massage your waist, thighs, and arms with three levels of intensities.

## CALF AND FEET

Stimulation using air bags to massage your calves to enhance blood flow from the lower body back to upper body. And also with the help of massage pads for your feet

## EXTEND LEGS

Raise foot rest from sitting 0 degrees to lying 90 degrees, to promote your blood circulation by relieving stiffness from the feet where fatigue tends to accumulate.

Not long enough? You can extend the lower part of the legs to adjust to your height!

# SHIATSU AIR

## ROTATION AND RECLINE

Shiatsu Air allows you to set the chair angle. Reclining can help your blood flow throughout your body and get rid of tension and stress. You can recline fully or recline the leg and back section separately to adjust to your needs with just one push of a button.

## CONTROLLER

The SHIATSU AIR has a controller with many buttons. Each buttons are separated into categories making it easier for you to locate what you want.
